

*4th Annual meeting
Bengaluru 4 – 5 June 2025*

An initiative of

smadja
smadja &

A high profile, global, strategic, event focused on startups and Entrepreneurship – The only one of its kind in India

To expand the technology/business interaction between India's innovation ecosystem and several peer ecosystems from foreign countries

To provide actionable insights on how to accelerate technology innovation is developing in India

To help boost the process from innovative ideas into marketable products and services

To identify technology and business trends and the openings they create for startups and corporates

To highlight the rise of India as the new global hub for innovation and entrepreneurship

To assess the impact of policies and regulations on technology innovation as they are shaped

A global platform, expanding its impact with its fourth Annual meetings

A strategic location: Bengaluru, the silicon valley and IT capital of India; the cradle of the world's third largest startup ecosystem; the number one location in India for R&D centres, and Global Capability Centres (GCCs)

More than an event: A process for accelerating technology innovation and for building cross-border entrepreneurs communities and ecosystems interaction

A framework for creating business relationships between startup founders and funders from key countries and their peers in India.

Some of the topics on the agenda of IGIC 2025 (1)

- **AI and Deep Tech as the new frontier of innovation**
- **Success factor for joining the world's leaders in semiconductors**
